SPDX ROADMAP

24 January 2013
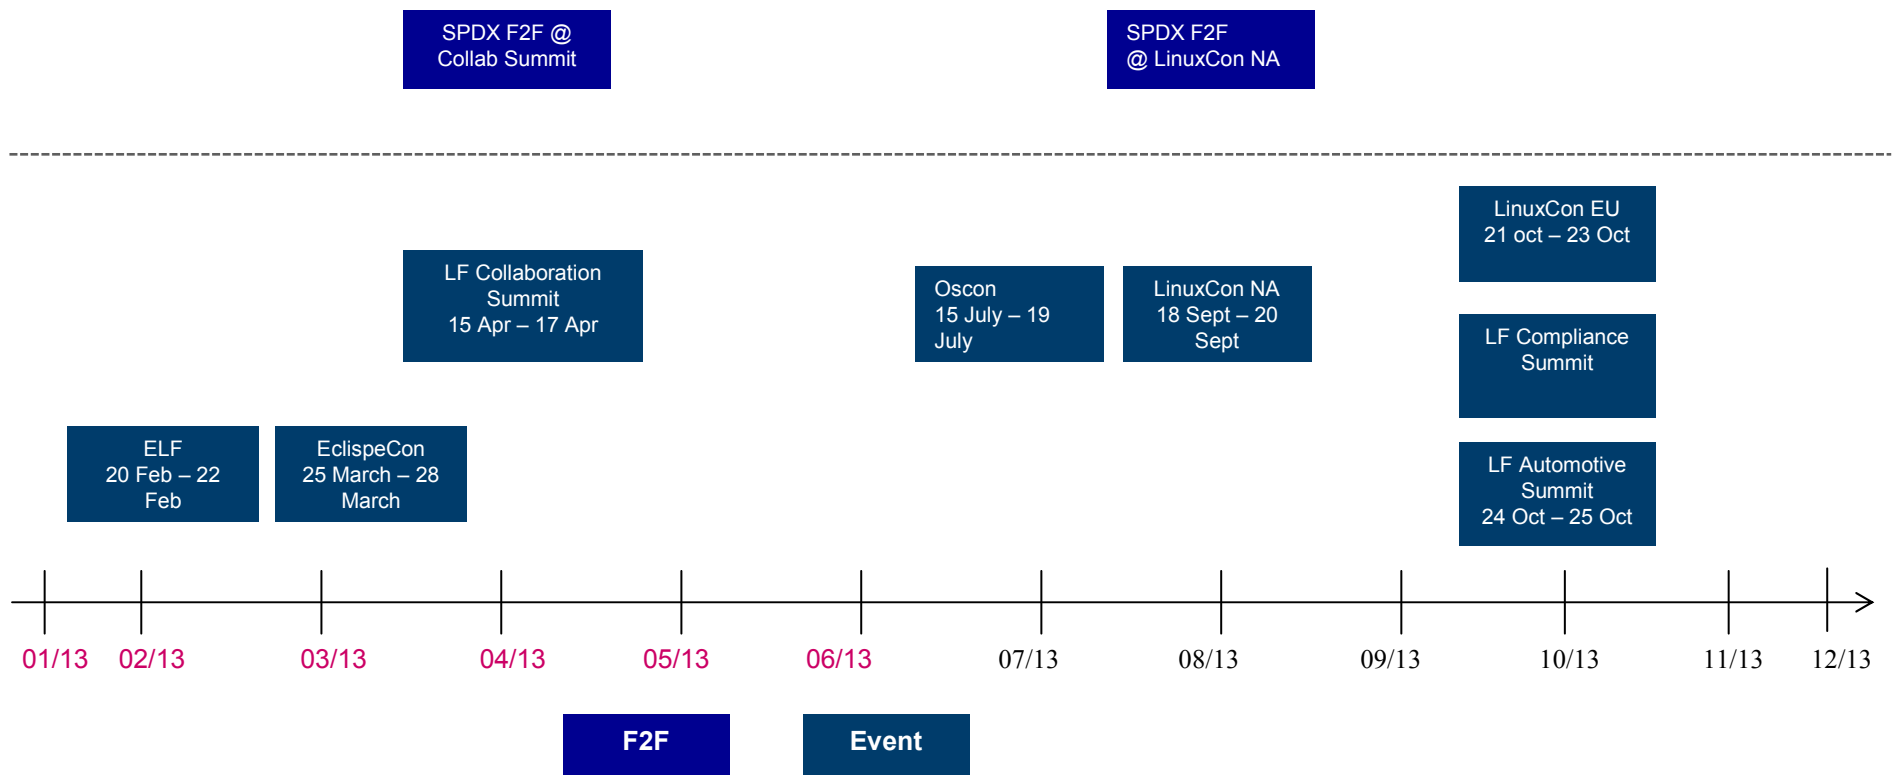

- This is a broad planning/milestone roadmap that covers activities for SPDX in the following areas:
  - Face to Face meeting dates and agendas
  - Events where we will be speaking about SPDX
  - Milestone release dates for the Specification, License List and associated Content.
- You may be viewing an offline copy of this roadmap. The most up to date version can be found on the SPDX website at http://spdx.org

SPDX 2013 Roadmap – Meetings and F2F

If you would like to be a speaker (on SPDX) at one of the events below or will be speaking at an Event on SPDX let us know by contacting the business team on our mailing last at: mailto: spdx-biz@lists.spdx.org . Also if you put the presentation in Slide Show mode you can click on the F2F to see the Agenda or on an Event to see who is speaking on SPDX and what the talk is about.

SPDX F2F @ Collab Summit

SPDX F2F @ LinuxCon NA

LinuxCon EU
21 oct – 23 Oct

LF Collaboration Summit
15 Apr – 17 Apr

Oscon
15 July – 19 July

LinuxCon NA
18 Sept – 20 Sept

LF Compliance Summit

ELF
20 Feb – 22 Feb

EclispeCon
25 March – 28 March

LF Automotive Summit
24 Oct – 25 Oct

ROADMAP DESCRIPTIONS

SPDX F2F at Collaboration Summit

- ## Standing Agenda Items
    - Overview/Introduction to SPDX Session for those who are new
    - SPDX State of the Union and business (State of SPDX by the Chairman, Team Reports by Team Leaders, General SPDX business)
    - Team Working Sessions. Team leaders need to contact the business team lead one month in advance of the summit to block out time as we will likely be sharing one room.

This Agenda is subject to change.

Events

Event	Speaker	Subject
EclipseCon	Need speakers	
LF Collab Summit NA	SPDX Team leads	SPDX Introduction for beginners, SPDX annual meeting and Team meetings.
OSCON	Need speakers	
LinuxCon NA	Need speakers	
LF Foundation Compliance Summit	Need speakers	
LinuxCon EU	Need speakers	
Embedded Linux Conference (ELF)	Need speakers	

Content Descriptions

- ## Spdx.org

  - This is a re-vamp of the web site look and feel to be more like other LF working group websites; It will also include a real media wiki along with other general improvements.

Specification Releases

- ## SPDX Specification 1.2
  - This is a place holder for any minor adjustments to the 1.1 Specification. This release may not occur if there are not substantial issues found in 1.1.

- ## SPDX Specification 2.0
  - This is the next major release of the specification. SPDX 2.0 will extend the specification beyond the package level scope and enhance it to address the needs of corporate supply chains and other key identified use cases.
  - For more information visit the Technical team working area: http://spdx.org/wiki/current-priorities-and-work-progress-technical-team

Release of a specification will also have a corresponding release of the tools at the same level. For example the 1.1 specification had the 1.1 release of tools. If a 1.2 specification is done then there will be a 1.2 tools. For 2.0 there will be a 2.0 Tools release.

Note: It is historical that we usually release versions of the specification at the time of the LF Collab Summit or at LinuxCon NA.

License List Updates

- SPDX License list updates will be done on a roughly quarterly basis if there are new licenses to be added.

- If a release of the License List is done, then the roadmap will be updated to change the Place Holder to the actual license list version done.
